

Autism Software Survey

Requested by

The Northern Gulf Group

www.ngtg.net

f-251.4323999

1. Based on the assistive technology you have used, which device and/or software program has been the most effective?

2. What do you like about this tool/program?

3. What do you dislike about this tool/program?

4. What are the most pressing technology needs for your child?

5. What additional functionality would you like to see from current assistive technology offerings?

6. What developmental milestone would you most like to see your child master this year?

7. What type of hardware would you/your child be most comfortable using?

Panasonic Toughbook/Motion Tablet (10 ½ inch Screen)

iTouch

Droid Personal Entertainment Unit

Touchscreen PC with portable stand (19" screen)

8. If a software vendor designed a program based on the needs laid out in this survey, would a subscription price of \$50/month for download access to new programs and designs from the vendor's site be a fair price?

Yes

No
